

This last weekend, the Shallowater High School Chapter of TSA competed at the state contest in Waco. The students brought home a second place finish overall in level II at the contest. Individually, there were 12 first place/Best in Division winners, 7 Second places, 4 third places, 1 fourth place, 3 fifth places, and 1 sixth place out of a total of 31 projects taken to the contest. The students that went to Waco did a wonderful job of representing Shallowater H.S., themselves, and their community. When you see any of the following students, please congratulate them for their hard work and well-earned honors. I would like to also thank Phoebe Myers and Keith Venable for volunteering to be sponsors on the trip. It was a great trip and a great way to finish off the year.
